## BEER JUDGE CERTIFICATION PROGRAM STYLE DESCRIPTION

**Overall:** A very pale, highly-carbonated, light-bodied, well-attenuated lager with a very neutral flavour profile and low bitterness.

**Aroma:** Low to no malt aroma. Hop aroma may range from none to a light, spicy, or floral hop presence. While a light fermentation character is desirable, a light amount of yeast character is acceptable.

**Appearance:** Very pale straw to medium yellow colour. White, frothy head seldom persists. Very clear.

**Flavour:** Relatively neutral palate with a crisp and dry finish. Hop flavour ranges from none to moderately-low levels. Hop bitterness at low to medium-low level. High levels of carbonation may accentuate the crispness of the dry finish. Clean lager fermentation character. Balance may vary from slightly malty to slightly bitter, but is relatively close to even.

**Mouthfeel:** Low to medium-low body. Very highly carbonated with slight carbonic bite on the tongue.
