BEER JUDGE CERTIFICATION PROGRAM STYLE DESCRIPTION

Aroma: Moderate to strong esters and phenols, typically banana and clove, often well balanced and typically stronger than the malt. Light to moderate bready, doughy, or grainy wheat aroma. Light vanilla optional. Light floral, spicy, or herbal hops optional. Bubblegum (strawberry with banana), sourness, or smoke are faults.

Appearance: Overall: A moderate-strength amber lager with a soft, smooth maltiness and bitterness, yet finishing relatively dry. The malt flavour is clean, bready-rich, and somewhat toasty.

Flavour: Low to moderately strong banana and clove flavor, often well balanced. Low to moderate soft, somewhat bready, doughy, or grainy wheat flavor supported by the slight Pils malt grainy sweetness. Very low to moderately low bitterness. Well-rounded, flavorful palate with a relatively dry finish. Light vanilla optional. Very low floral, spicy, or herbal hop flavor optional. Any impression of sweetness is due more to low bitterness than any residual sweetness; a sweet or heavy finish impairs drinkability. Bubblegum, sourness, or smoke are faults. While the banana-and-clove profile is important, it should not be so strong as to be extreme and unbalanced.

Mouthfeel: Medium-light to medium body; never heavy. Fluffy, creamy fullness progressing to a light, spritzy finish aided by high to very high carbonation.
